

Cookie Policy

1. Information on Cookies and our use thereof

Cookies are small text or data files stored into Your web browser and on Your hard drive. Cookies are designed to hold a modest amount of data specific to You, Your online behavior and Your use and presence on Our website. Cookies allow Our server to deliver a page tailored to You in particular.

Our Website uses cookies and similar technologies to identify You and Your preferences from those of others. In doing so, We may provide You a better experience of visiting and using Our Website and allows Us to optimize Our Website.

Due to several legislative initiatives on national and European level, all websites directed towards European markets and citizens must inform all users on the use of cookies before entering the website for the first time and must obtain the prior consent of such users before installing or reading cookies of certain categories.

This Cookie Policy forms an integral part of the Privacy Policy, governs the use of cookies on Our Website and provides thorough information to the users of the Website.

2. Types of cookies

Our Websites uses the following cookies:

Name	Type/Function	Preservation	Origin	Consent
_UTMA	distinguish unique and returning visitors	Expires after 2 years	Google Analytics	
_UTMC	distinguish unique and returning visitors	expires after closing browser	Google Analytics	
_UTMB	track/follow visitors	expires after 30 minutes	Google Analytics	
_UTMZ	determine the source of visitors (that is, from where visitors reached the site)	expires after 6 months	Google Analytics	

According to European law, providing information is sufficient for all functional and necessary cookies (e.g. cookies relating to registration and login details, language preferences, shopping baskets). For the use of all other cookies, the prior consent is mandatory.

3. Your consent

Upon Your first visit to Our Website, You are asked to accept different types of cookies. You may accept or refuse cookies per category. You can change your cookie preferences at all times in your browser settings.
